

## What is an air-to-air heat pump?

Heat pumps extract heat from the outside air, even in cold weather. They use an electrically powered compressor and are extremely effective at heating a flat or a house. Daikin heat pumps are silent and discreet, and use state-of-the-art technology to keep your energy bills as low as possible. With a Daikin heat pump, 80% of the energy used to heat your home comes from the outside air, a free and infinitely renewable resource! For cooling, the system is reversed, extracting heat from the indoor air.

# Why choose Daikin?

## 1 High Efficiency

### BLUEvolution

Creating a fresh climate at home is about more than just pure comfort. Daikin systems are easy on your wallet and good for the environment, too. The next-generation refrigerant R-32 and optimised compressors make sure you stay in your comfort zone.

Our products' low energy consumption means lower energy bills for you reaching the highest energy efficiency levels.

## 2 Low Sound

With sound pressure down to 20 dBA the new FTXB-C operates almost unnoticed ensuring a good night's sleep.

## 3 Control via app

### Always in control, no matter where you are

The Daikin Online Controller application can control and monitor the status of your air conditioning and allows you to:

#### Monitor

- › The status of your air conditioner
- › Consult energy consumption graphs

#### Control

- › The operation mode, set temperature, fan speed and powerful mode, air direction and filtering (streamer) function
- › Remotely control your system

#### Schedule

- › Schedule the set temperature and operation mode with up to 6 actions per day for 7 days
- › Enable holiday mode
- › View in an intuitive mode
- › Demand control/power limitation

## 4 Clean Air

The Sensira unit contains 2 filters: the titanium apatite deodorising filter and the catechin filter.

Daikin's titanium apatite deodorising filter removes airborne dust particles and decomposes the odours of tobacco and pets, for example. It also traps and even deactivates harmful organic chemical substances like bacteria, viruses and allergens to ensure you enjoy a steady supply of clean air.

Additional to the titanium apatite deodorising filter, the catechin filter deactivates captured bacteria, virus and unpleasant odours.

Creating the perfect indoor climate is what Daikin units are all about. These wall mounted units are discreet and create a comfortable atmosphere with lower energy use.
